GEBHARDT has been developing and manufacturing efficient logistics solutions for trade and industry for over 195 years. The company, headquartered in Cham, is now in its 6th generation of successful family management. Traditional values have been part of the company philosophy from the very beginning. At the same time, entrepreneurial vision and a willingness to innovate have always been the driving force behind change and steady, sustainable growth. Today, GEBHARDT generates a turnover of 75 million euros with almost 400 employees at five production sites worldwide.
